# Okta Mobile Guide (Android)

The first step to successfully setting up Okta on your Android Device is to download the "**Okta Mobile**" app from the Google Play Store.

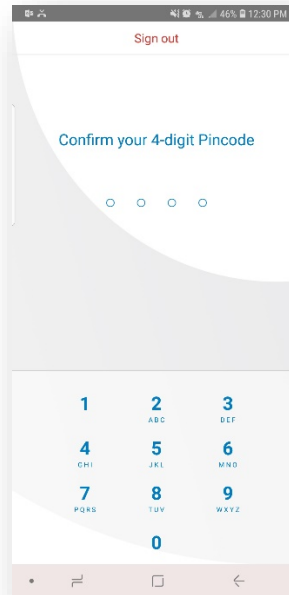

Once downloaded, locate and open the App.

The site name is "**Solairus**".

The Username is your "**Solairus Email**".

The Password will be the same password you created for the solairus.okta.com website.
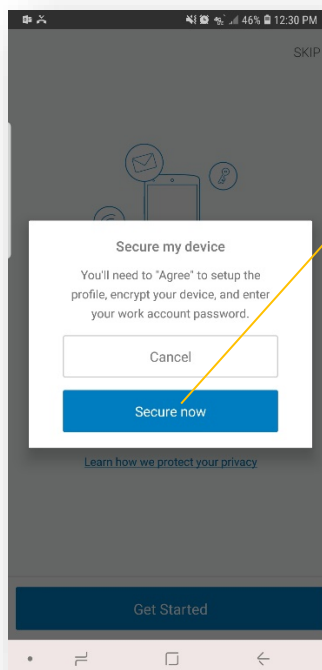

Next you will be prompted to create & confirm a passcode for the Okta Mobile App.

You will be presented with the option to use your fingerprint to unlock the Okta app, this is optional.
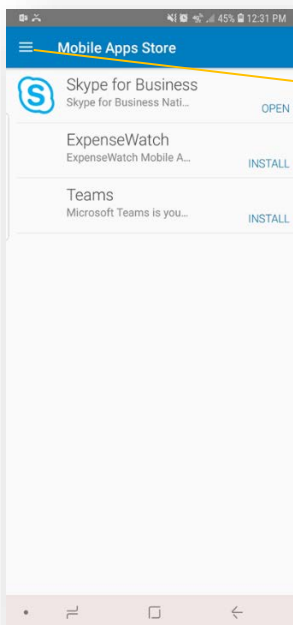

Please click the option to "**Get Started**".

Click the option to "**Secure Now**".

Please Click the option to "**Activate**", to finish the Okta Mobile installation.

**If you have any questions or concerns regarding his step please refer to the Okta Privacy Statement or contact the Solairus IT Department directly with your questions.

To access Company resource please click on the 3 white lines in the upper left corner. And click the "**My Apps**" option.

From here you will see various "Chiclets" (icons), that take you to various company resources.

If you run into any issues along the way, please do not hesitate to contact the Solairus IT Department with a ticket by clicking the link below:
